Pisscup, AKA Lolpoll and Sandibles, is a rather well known user in the PT joke reskin community, yet what people don't see is that she's a manipulative demon. This document will explain why.

Pisscup has emotionally abused people, telling her she was going to do things such as kill herself or harm herself, when in reality she didn’t. She just wanted attention. This attention seeking also is what the reason the Greg. mod got cancelled is.

She is also very unloyal as a GF. She has cheated on all the people who she has dated (nebula bubbles, Greg., moonlighttheartisticcat), and has emotionally abused them as mentioned above.

DMs of her conversation with one of her ex BFs can be seen here.

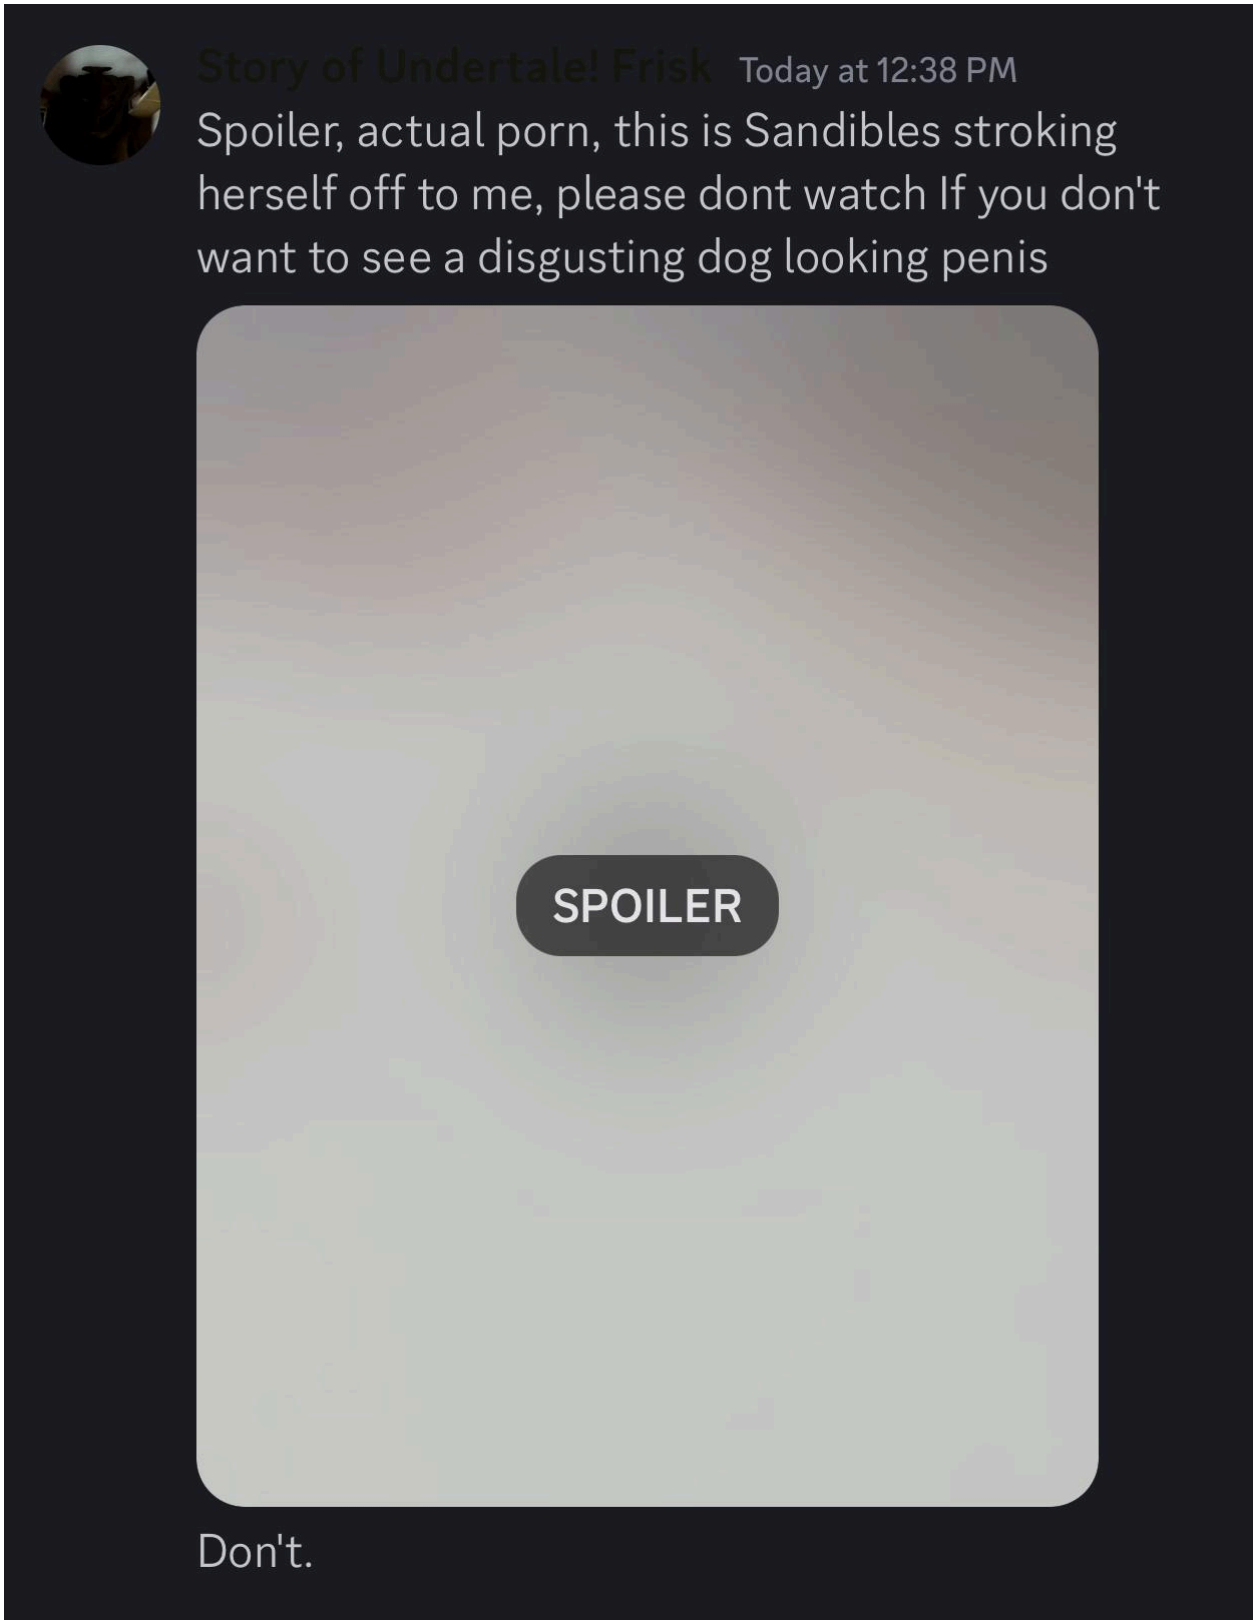
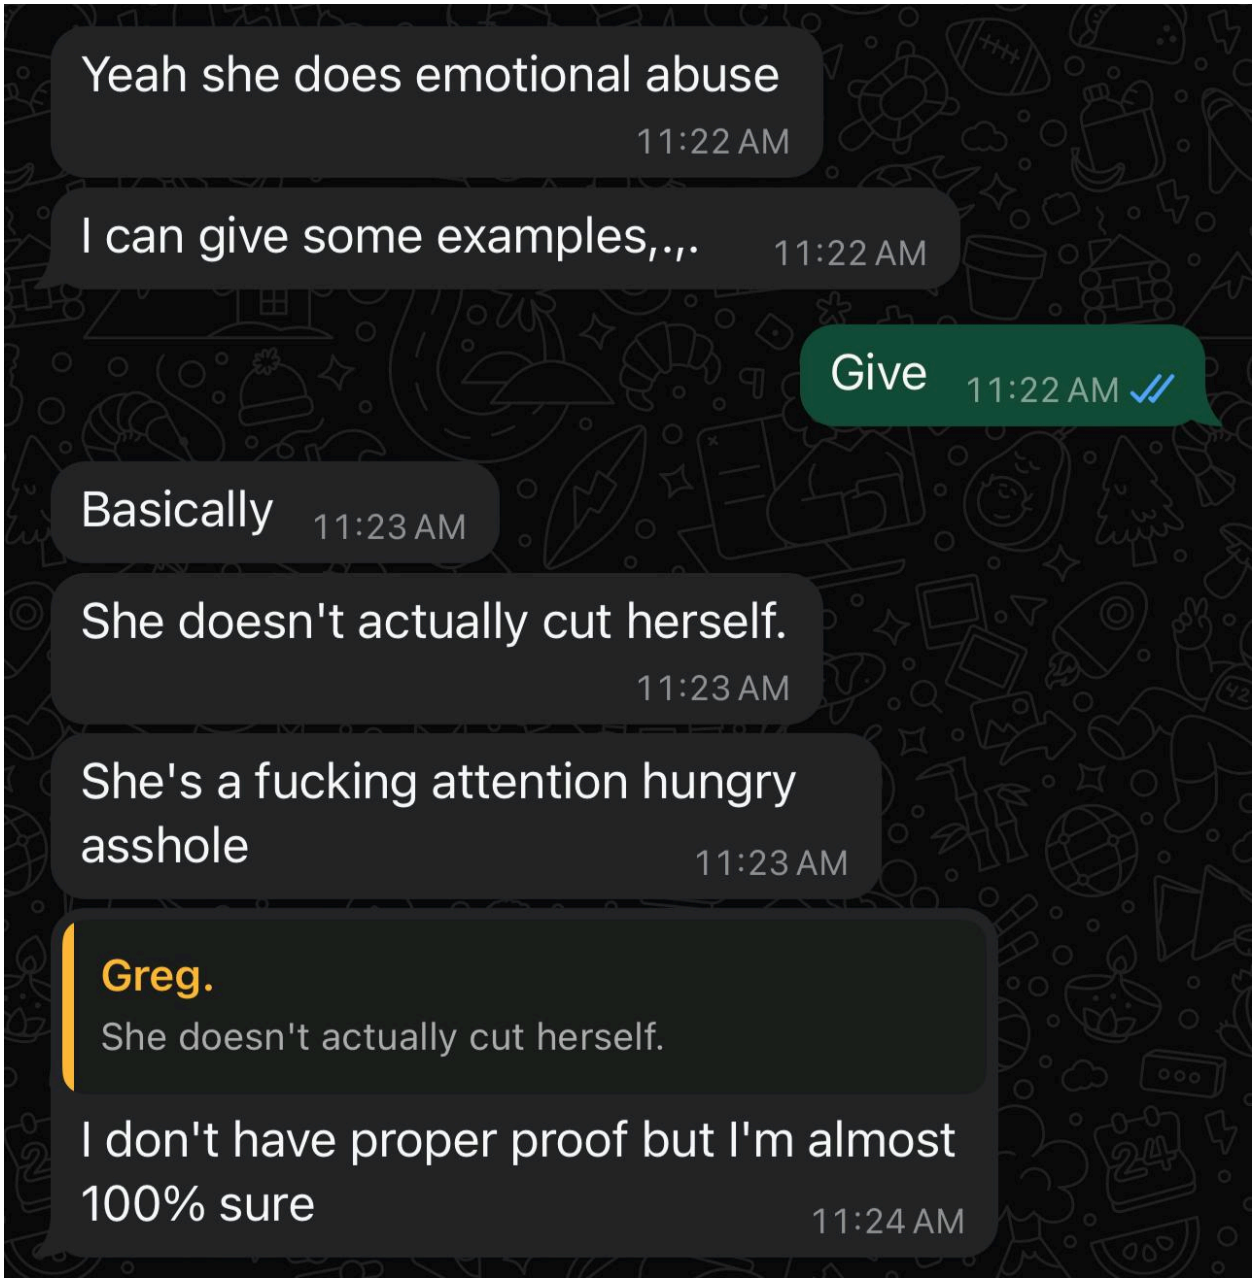
Also, little fact: Anyone can be a groomer. There was a previous case of a minor grooming adults, along with a minor grooming another minor. So, taking that and how anyone can be a victim into consideration, along with technicalities, Pisscup is a **groomer.** Either way, it's still considered **sexting.**

Also, she has sent nudes of herself as well. Considering how she's a minor and all of the people she's dated were ALSO minors, this is a MAJOR red flag.



All her wrongdoings were discussed in a WhatsApp GC.



Yeah she does emotional abuse
